

Technical data Protec™ Fungosave

Protective nonwoven for swimming-pool sheet

Product	Protec™ Fungosave
----------------	--------------------------

Characteristic properties

Structure and form	100% fibres of polypropylene, needle-punched, thermally bonded, with antibacterial finish and UV-stabilized. Can be cut perfectly with the carpet knife also in wet condition!
--------------------	---

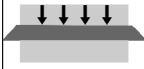

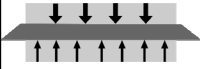

Mechanical properties Norm

Weight	g/m ²	330	nom	EN ISO 9864
Thickness	mm	2.6	nom	EN ISO 9863-1
Elongation	longitudinal	%	70	nom
	transversal	%	70	nom
Tensile strength	longitudinal	kN/m	10	nom
	transversal	kN/m	15	nom
Static puncture resistance	CBR	kN	2.3	nom
Dynamic puncture test	mm	16	nom	EN ISO 13433

Delivery form

Length	m	100		
Width	m	1.45 1.60		
Area	m ²	145 160		
		200 400		

Function / application

Intended function	 	
Application	 	

min = minimum values | max = maximum values | nom = nominal values

The values given are average obtained according to internal and external testing. We reserve the right to make changes at any time in accordance with our knowledge, technology and experiences without any notice.
