

Contraphon™ FR

Contraphon™ FR is a highly flame-retardant nonwoven trickle protection barrier against house dust and insulation particles.

It has a fire classification thanks to its flame-retardant properties and is therefore suitable for use in areas with public access. Contraphon™ FR improves the visual appearance of joints in walls and ceilings.

Functions

- ✓ Dust protection
- ✓ Sound absorbent

Advantages

- ✓ Reduces dust development in living areas
- ✓ Free from volatile substances
- ✓ Easy handling and laying
- ✓ Lightweight
- ✓ Extremely tear resistant
- ✓ Durable
- ✓ Fire classification B s1, d0/DIN 13501-1

Strengths

- ✓ Fire class rating B s1, d0 after DIN EN 13501-1

Certifications and quality controls

Fire index number
