

# ALLPROTECT

by Landolt.com™

## White

### Translucent and self-adhesive protective nonwoven for use on vertical surfaces

Vertical, smooth surfaces can be protected against soiling (plaster, paint, dust, etc.) and scratches with the self-adhesive and translucent protective nonwoven ALLPROTECT™ White. It is strongly adhesive, impermeable to moisture and especially suitable for glass surfaces and profiles such as facades, windows and doors.

**For a positive advertising effect, you can even print your own company logo on Allprotect White.**
