Landocol™ is a double-sided adhesive nonwoven.

Landocol™ is an extremely hard-wearing, double-sided adhesive nonwoven underlay for laying textile floor coverings without the use of carpet glue. It is easy to lay and improves the absorption of impact sound.

Self-adhesive carpet underlay for textile floor coverings.

Functions

- ✓ Dry installation of textile floor coverings
- ✓ Reduces impact sound
- ✓ More comfortable to walk on

Advantages

- ✓ Permanent and even adhesion
- ✓ Odourless
- ✓ Durable

Applications

- ✓ On screeds
- ✓ On tiled floors
- ✓ On parquet / laminate flooring

IMPORTANT: Not suitable for laying on floor coverings with a high softener content, e.g. PVC flooring, or porous stone floors (marble, clay tiles, etc.)

Depending on the duration and the load applied while laying a floor cover with Landocol™, more or less residues of adhesive will remain on the substrate or the old utility cover.
